ABOUT ALPHA

Alpha provides you with the most innovative and technically advanced products engineered to protect your high-theft merchandise. Any theft is unacceptable. It is our goal to help you control all levels of theft and improve your bottom line one innovation at a time.

Every Alpha product provides:

- Security to ensure the highest level of protection for your high-theft merchandise.
- Aesthetics to enhance the merchandising of the retail products they protect.
- Value to increase your profits by reducing theft and helping to defend your bottom line.
- Ease-of-use allows for easy application and removal with less disruption to your sales process.

HARD TAGS Banded Hard Tag

Maximizes display opportunities

Our new Banded Hard Tag provides protection for items where a standard hard tag may not apply. Instead of two separate pieces, the pin is already attached to the tag making application quick and easy.

KEY FEATURES:

- · Standard or Super clutch strengths
- · Eliminates loose pins on the floor or left in merchandise creating a safer work environment
- · More economical no pins are lost during the recycle process
- · Even if band is cut, pin will prevent removal of the tag from the item
- · Replacement pins are available to extend the life of the tag

S3vxi Keys

S3vxi Counter Key (Closed & Locked)

S3vxi Counter Key (Open)

S3vxi Keys and S3vx security devices are programmed with unique, storespecific code. Once programmed, attempts to open S3vx devices with anything other than Alpha's proprietary S3vxi Key will result in an alarm. S3vx devices are programmed to "erase" the store code if the S3vxi Key is stolen.

S3vxi Keys open the following devices:

- · S3vx AVM606 Keeper
- · S3vx AVM806 Keeper
- · S3vx AVM966 Keeper
- · S3vx 2 Alarm Attack Spider Wrap®
- · S3vx 2 Alarm Mini Spider Wrap
- · S3vx 2 Alarm Mini CableLok®

- · Key is backwards compatible and will open existing Alpha S3 devices
- · S3vxi Keys are also compatible with the S3i store network
- · Can be locked when not in use
- · Serial number provides added security

esigned to be removed by the consumer after purchase, Alpha's Single Use solutions offer an economical, practical and secure approach to protecting your merchandise from theft and wardrobing.

IMPROVING YOUR BOTTOM LINE ONE INNOVATION AT A TIME.

SINGLE USE

peg hook merchandising

Blister Tag

The Blister Tag is highly effective in reinforcing the die-cut peg hole in clamshell or blister packaged merchandise. The one-way clip is easy to use and makes sweeping from a peg hook difficult while maintaining the integrity of the packaging.

KEY FEATURES:

- · Provides a strong visual deterrent to shoplifters
- · Unique design includes center hole to accommodate a variety of merchandise
- · Applied in store and removed by the consumer after purchase
- · Reinforcement of the die-cut peg hole adds security

SUGGESTED APPLICATIONS:

Clamshell and blister packages

Consumer removal

Strong visual deterrent

			(4.00cmL x 2.00cmW x 3.00cmD)	

Shark Tag®

Shark Tag is very effective in preventing customers from purchasing, using and returning merchandise for a full refund.

The right red Shark Tag attaches to the garment in a visible area signifying that the merchandise is being secured. Shark Tags are easily removed by the customer at home.

KEY FEATURES:

- · Assures the garment is in a new and unused condition when returned
- · Easy, at home removal
- · Can be used to reinforce your store return policy
- · Can be source-applied or applied in the store

SUGGESTED APPLICATIONS:

ShelfNet[™]

S3i ShelfNet™-The Intelligent Way to Reduce Shrink, Increase On-Shelf Availability and Profitability

The cost of out-of-stocks is staggering – billions of dollars are lost annually when merchandise can't be found on shelves. Profits and shopper experience suffer. With S3i ShelfNet, you will gain real-time access to actionable data and alerts that can help you deter theft, optimize inventory, improve on-shelf availability and increase sales.

Advantages of ShelfNet

- Provides associates with notifications in real-time using the PA System and/or mobile alerts when an item facing is out of stock. These real-time alerts can indicate a theft event or prevent lost sales by communicating the need for quick restocking
- Indicates true shelf activity with reports that help merchandising and CPGs measure product performance and optimize assortments
- Confirms that items are actually on the shelf versus just on-hand somewhere in the store
- Allows LP to quickly review videos when time-stamped shelf activity reports are used in conjunction with CCTV
- Enhances customer experience through improved merchandise availability

ShelfNet System Components

- Scalable, wireless network hardware and software that is easy to install. No wiring or power is required at the shelf
- ShelfNet Sensors are compatible with most pusher systems -- the number of Sensors used can be customized to your needs

Who Benefits From ShelfNet?

Retailers: ShelfNet provides a reduction in out-of-stocks, an increase in on-shelf availability and positive shopper experiences. It can also eliminate manual shelf scanning which reduces the time to inventory merchandise while increasing accuracy.

Loss Prevention: Immediate alerts when possible theft events occur allow for quick response from LP and store associates. ShelfNet can also deter theft if a shoplifter empties several facings and hears audible alerts over the PA System, letting them know that their activity is monitored. Time-stamped activity reports provided by ShelfNet can also be used in conjunction with CCTV videos to pinpoint when theft occurs.

Operations & Merchandisers: ShelfNet indicates true shelf activity through reports that show shelf activity and compliance. It can also increase speed-to-shelf, better forecasting and quicker replenishments.

How ShelfNet Works

With the real-time data supplied by ShelfNet, retailers gain new insights into the availability of their merchandise and mitigate shrink from shoplifters and ORC. It provides a picture of true demand so retailers can stock the right products at the right time and keep valued customers coming back. For more information about ShelfNet, call: 888-257-4272.

e understand how critical the customer experience to increasing your sales so we offer products that showcase as well as protect your high-value merchandise.

Turn shoppers into buyers by providing smart solutions on display.

DISPLAY SOLUTIONS

IMPROVING YOUR BOTTOM LINE ONE INNOVATION AT A TIME.

Atlas™

Security and power in a stand alone solution

Introducing Atlas — a sleek, low-profile stand that secures your high-theft electronics and increases your sales by allowing shoppers to fully experience the merchandise. Atlas is a completely self-contained system above the counter and will integrate easily with your fixtures.

- Works with tablets, mobile phones, cameras, GPS devices and MP3 players
- System provides power to merchandise so shoppers have the full experience
- Security is monitored through multiple trigger points
- Internal alarm and flashing LED indicates if product is tampered with
- Back-up battery maintains constant security if power is lost or power supply is interrupted
- Adhesive on the base mounts securely to any flat surface without drilling holes
- Programmable security key will arm or disarm system — up to 20 keys can be programmed for each stand
- Backed by a global service and support network
- Compliments Alpha's line of S3 solutions
